# A Decade for Teaching

Lynn Korn

On July 1 last year, I became Associate Faculty Director for the Alluvial Research Institute.

thus for the development are closer, and  
here's what the [redacted] [redacted]

develop a program based on those things to run  
to provide occasional services like training semin

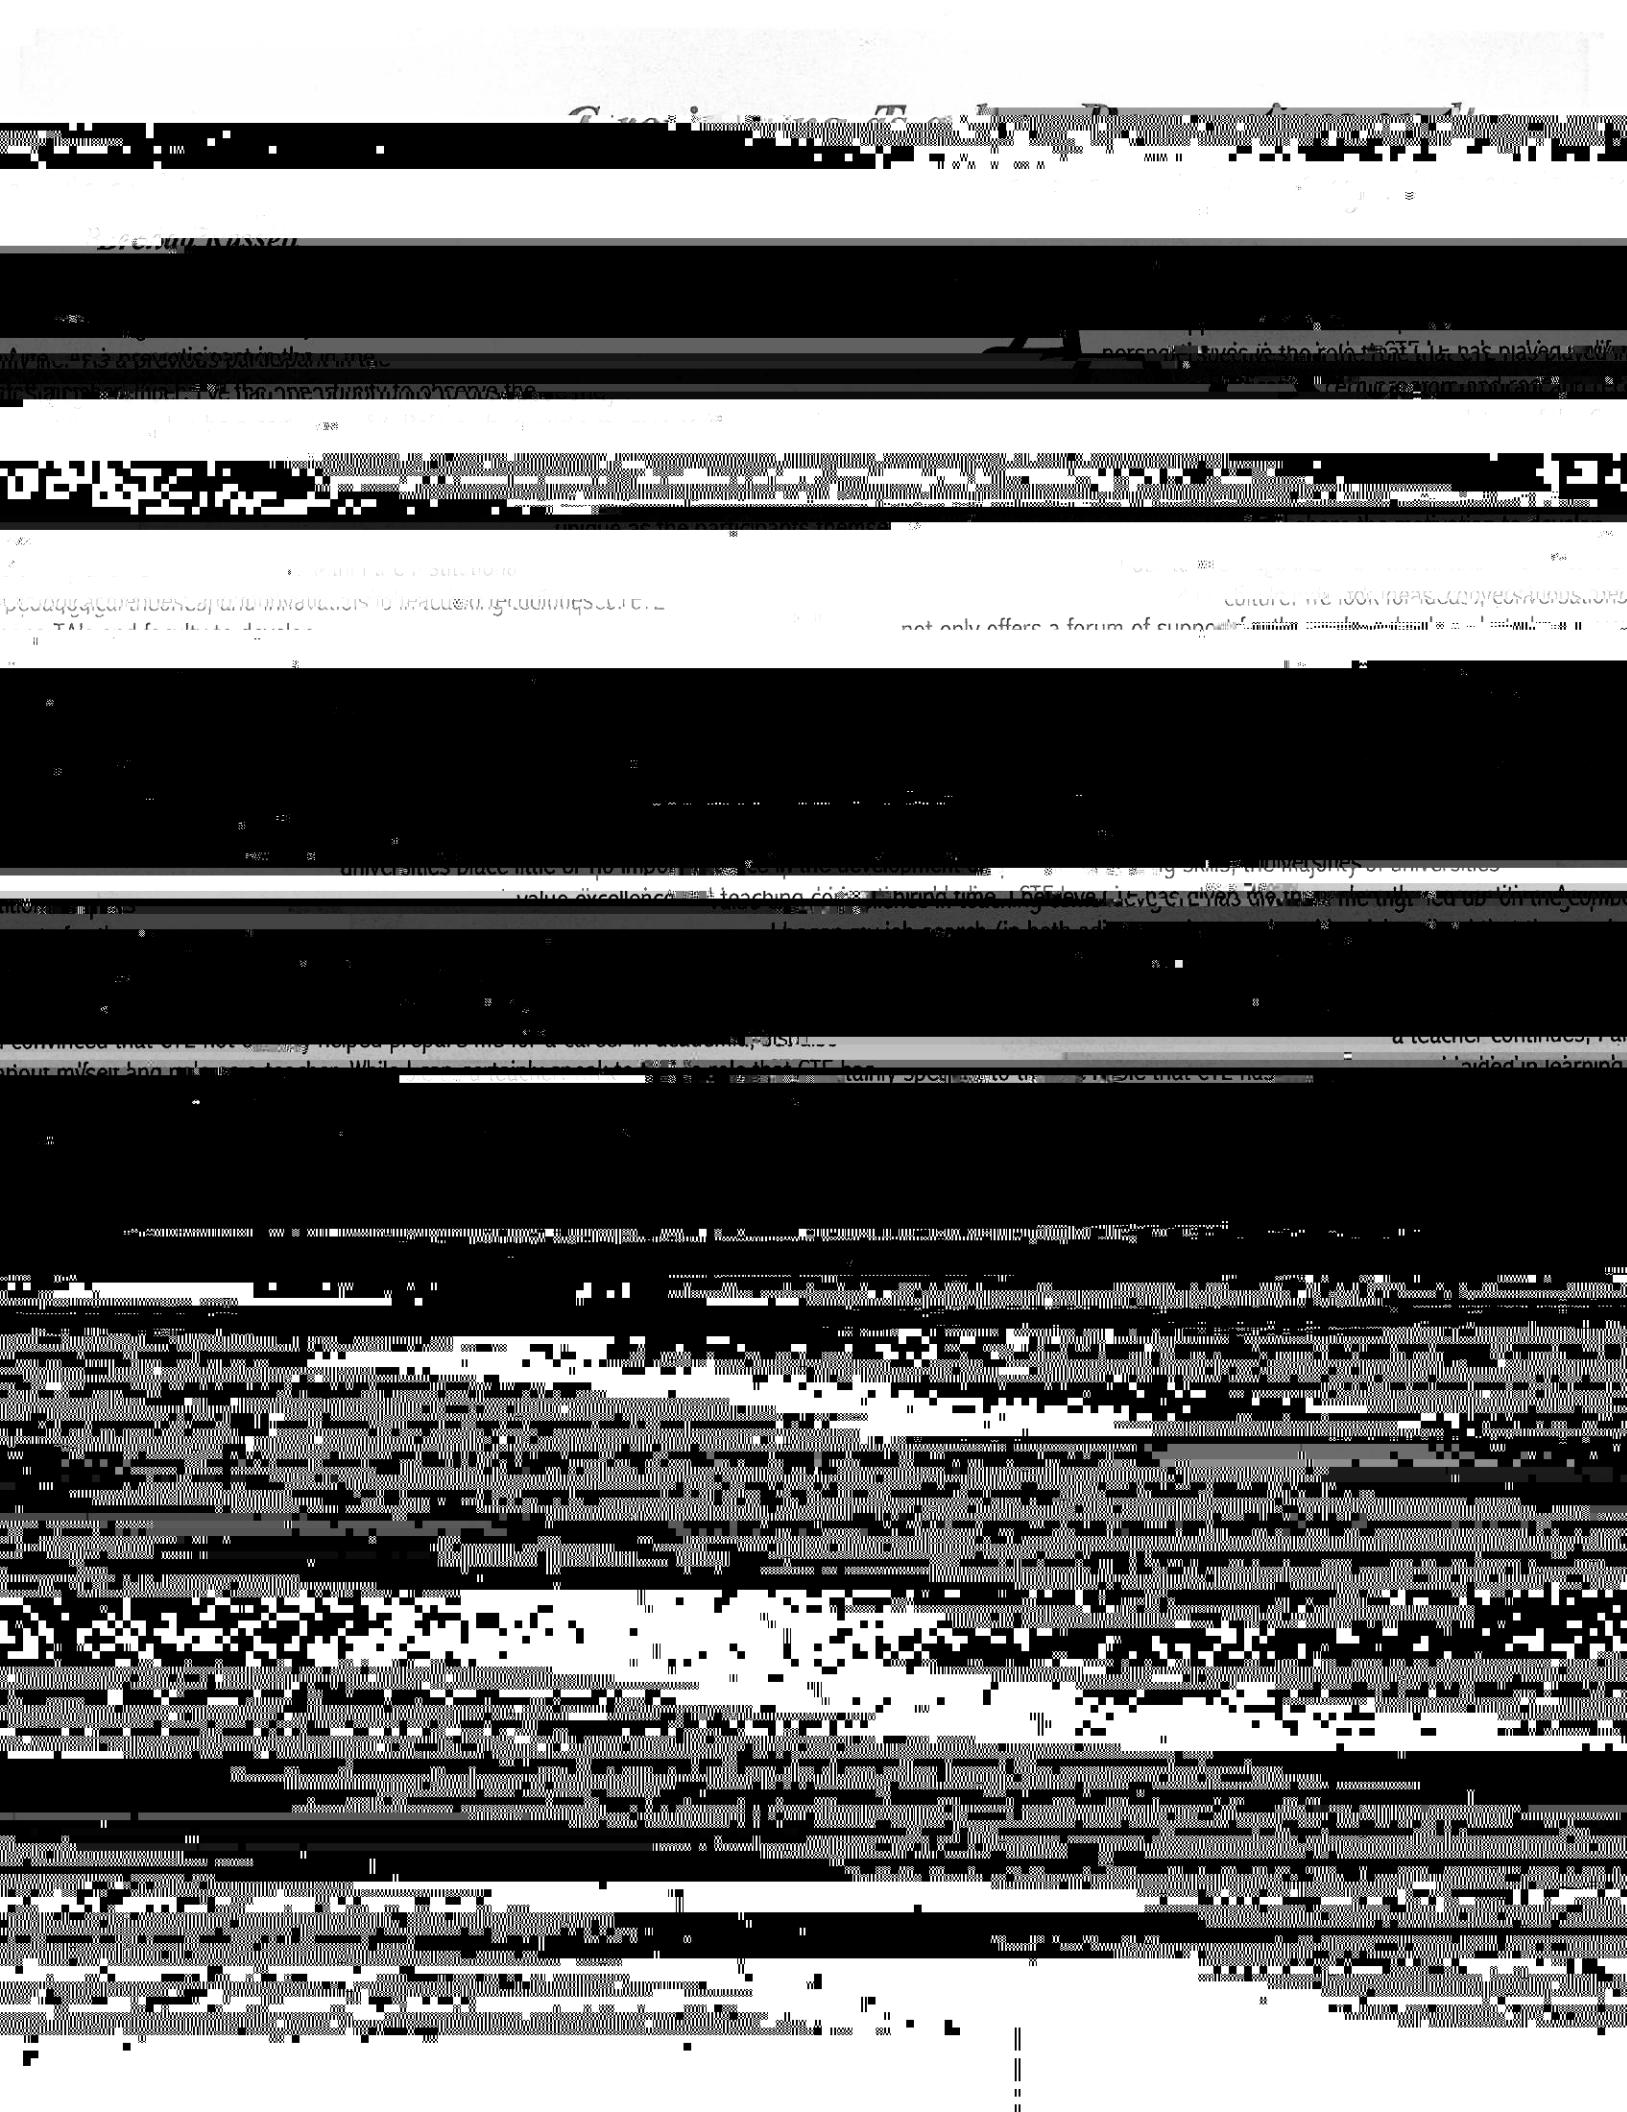

area of pedagogy. Faculty and teaching assistants are engaged in the process of learning about what technologies are available, how they might use these technologies in their teaching and how to evaluate them for their effectiveness.

Coupled with enhanced computers and software, the possibilities for integrating technology into the classroom are almost endless. Given the rapid expansion of computer technology, the possibilities, the opportunities for teaching and research have become intertwined with research and education.

Given the rapid expansion of computer technology, the possibilities, the opportunities for teaching and research have become intertwined with research and education.

spirit that continues to seek the winds of destiny.,

Teddy G. Gau,

—A judicious neutrality

A bold man turned can arrest in a half hour.
