RETURNING, TESTING, LEARNING...

“ It was so rewarding because people were eager to stop the virus. There were cars with as many as three or four generations of families, some came aft333t8.8 ()D3cs

ONE STUDENT'S EXPERIENCE...

At the height of the COVID-19 pandemic on July 1, 2020, Dean and Professor Danny Willis, D.N.S., RN, PMHCNS-BC, CNE, HSGAHN, FAAN, became the first male dean of the Trudy Busch Valentine School of Nursing. He has spent more than two decades in academic nursing as a leader, researcher, mentor and educator. Just prior to arriving at Saint Louis University, he was the associate dean for academic affairs at the University of Wisconsin-Madison School of Nursing. Before that, he served as a tenured faculty member and department chair at Boston College's William F. Connell School of Nursing.

What drew you to Saint Louis University and the Trudy Busch Valentine School of Nursing?

What were your first impressions of the City of St. Louis?

You interviewed and accepted the deanship before COVID hit the United States. Yet by the time you arrived, it was here. How did the pandemic and its challenges frame your first year at the University and particularly, as dean of the Valentine School of Nursing?

Now that you have been here for a while, what are your thoughts regarding the city and the role of the Valentine School of Nursing and the University?
