

## Program Level Assessment: Annual Report

Program: Bachelor of Science in Social Work

Department: Social Work

Degree or Certificate Level: BSSW

College/School: School of Social Work

Date (Month/Year) November 2023

Assessment Contact: Shann@operSadlo, PhD/LCSW

In what year was the data upon which this report is based collected? AY2020

In what year was the program's assessment plan most recently reviewed/updated? AY2022

### 1. Student Learning Outcomes

Which of the program's student learning outcomes were assessed in this annual assessment cycle?

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

### 2. Assessment Methods: Artifacts of Student Learning

Which artifacts of student learning were used to determine if students achieved this outcome? Please identify the course(s) in which these artifacts were collected. Clarify if any such courses were offered a) online, b) at the Madrid campus, or c) at any other offcampus location.

The identified student learning outcomes were assessed using the comprehensive master measure developed by the BSSW curriculum committee. This was administered in the final semester of the senior year in SWRK 4250 (Integrative Seminar). This assessment was administered in class.

Based on the feedback from the University Assessment committee, we are including our Field placement instrument to capture how knowledge and skills taught in the courses translate into practice in the field. No classes are offered offcampus or online.

### 3. Assessment Methods: Evaluation Process

question is under review by the committee to address this issue with the measurement. Furthermore, the BSSW program is implementing a new course AY 23-24 that will address this area of competency in a more intentional manner.

If no changes are being made, please explain why.
