Minimum Trainingand ExperienceRequirements or BSL3/ABSL3 Work with SAR&CoV2 and Other High RiskPathogens

May 27, 2020

INTRODUCTION PREMISE

- x Therapid advanceof the COVID19 pandemichascreated a dire need for critical research to better understandand managethe coronavirus(SAR \$CoV2) causing this pandemic.
- x A number of SLUresearchershave expressed

Minimum Trainingand ExperienceRequirements for BSL3/ABSL3 Work with SAR\$CoV2 and Other High RiskPathogens May 27, 2020

(b) New BSL3/ABSL3 users must demonstrate to the BSC(or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) proficiency in safely and configuration of the BSC (or designee) profice (or des

Minimum Trainingand ExperienceRequirements or BSL3/ABSL3 Work with SARSCoV2 and Other High RiskPathogens

May 27, 2020

- (b) This course includes a Power Point presentation and a tour of the ABS 43 facility.
- (c) Thistraining is required to be completed annually to maintain ABSL3 access
- 3. PoweredAir PurifyingRespirator(PAPR) Training(provided by BSO ComparativeMedicine). If work in BSL3/ABSL3 will require use of a PAPR espirator, the following training must be provided as stated below.
 - (a) If the BSL3/ABSL3 user'swork will require use of a PAPRn both the BSL3 and ABSL3 laboratories, then training is provided by the BSO
 - (b) If the BSL3/ABSL3 user'swork requiresPAPRuseonly in the ABSL3 laboratories, then training will be provided by the CMM anager.
 - (c) Thistraining courseconsistsof a PowerPointpresentation, viewing a series of training videos (optional) provided by vendor, and a handson experience with BSO or CM Managerthat includes donning, doffing, and maintenance of the PAPR unit.
 - (d) Thistraining is required to be completed annually to maintain BSL3 and/or ABSL3 accessor which PAPRuse is required.
- C. Requirements or IBCand IACU (Protocol Applications (PINew to BSL3/ABSL3)

A PIwho is not experiencedworking in BSL3/ABSL3 labsand who wishesto submit a new IBC and/or IACU@rotocol requiring BSL3/ABSL3 containment is required to complete the train 0.004 IBv9(e2/45/d)-
